

D0426 - Pike Valley Elementary Wellness Policies

D0426 - Pike Valley is committed to providing school environments that promote and protect children's health, well-being and ability to learn by supporting healthy eating, nutrition education, physical activity and integrated school based wellness. Therefore, it is the policy of D0426 - Pike Valley that:

Policies in Place

Nutrition

General Atmosphere

Substitutions are provided for students with medical disabilities identified by a licensed physician that require meal modifications per the signed Meal Modification Form.

Substitutions are provided for students with allergies and intolerances that do not rise to the level of a disability, identified by a Recognized Medical Authority on the signed Meal Modification Form.

The food service area is clean, orderly, and has an inviting atmosphere.

All school food service personnel receive required food safety training at a minimum of every 5 years. Continuing education training for all food service personnel meets federal and state requirements.

All school food service personnel receive required food safety training at a minimum of every 3 years.

All school food service personnel receive food safety training annually.

The dining area has seating to accommodate all students during each serving period.

The dining area has adult supervision.

The students are allowed to converse with one another at least part of the meal time.

Mealtime conversation is not prohibited for the entire meal time as disciplinary action.

Reimbursable meals and/or parts of a reimbursable meal are not withheld or denied as a disciplinary action.

Serve a locally procured product in the school meals program at least one time per week.

Breakfast

All school breakfasts comply with USDA regulations and state policies.

Students have at least 10 minutes "seat time" to eat breakfast (not including time spent walking to and from class or waiting in line).

Nutrition

Students have at least 15 minutes "seat time" to eat breakfast (not including time spent walking to and from class or waiting in line).

Lunch

All school lunches comply with USDA regulations and state policies.

Students have at least 15 minutes "seat time" to eat lunch not including time spent walking to/from class or waiting in line.

Students have at least 20 minutes "seat time" to eat lunch not including time spent walking to/from class or waiting in line.

All Food Sold in Schools

No foods or beverages are sold except reimbursable schools meals or snacks.

All foods and beverages sold in schools are in compliance with USDA's Smart Snacks in School "All Foods Sold in Schools" Standards from the midnight before to 30 minutes after the end of the official school day.

During the School Day

Students have access to free drinking water throughout the school day, including during meal service. Hygiene standards for all methods delivering drinking water will be maintained.

Students are allowed to have clear/translucent individual water bottles in the classroom.

Fundraising within the school day meets "All Foods Sold in Schools" Standards (sans the exempted fundraisers).

Meals purchased at fast food outlet to be consumed at school must not be brought to school in their original containers. Caffeinated beverages are not allowed in sack lunches to be consumed in the cafeteria. (Elementary/Middle School)

Nutrition Education

Nutrition Promotion

School promotes participation in the National School Lunch Program (NSLP) and School Breakfast Program (SBP) if applicable and to choose nutritious foods and beverages throughout the day. Menus are posted on school website and/or distributed to families via another method.

Students provide input on foods offered in the cafeteria.

Students learn about the nutrition requirements for school meals and some students are involved in helping plan menus.

Nutrition Education

All students in grades K-12, including those with disabilities, special health care needs and in alternative education settings, will have the opportunity to participate in culturally relevant participatory activities and a variety of learning experiences that support development of healthful eating habits that are based on the most recent Dietary Guidelines for Americans and evidence-based information.

Nutrition Education

School administrators inform teachers and other school personnel about opportunities to attend training on nutrition and encourage them to attend training on teaching nutrition.

Include nutrition education as part of health education classes and/or stand-alone courses for all grade levels, including curricula that promote skill development.

Active learning experiences are provided such as involving students in food preparation or other hands-on activities.

School uses qualified personnel or organizations from the community to provide nutrition education to students such as the Kansas State Department of Education, K-State Research and Extension, health and agriculture organizations, universities and consulting registered dietitians or other qualified individuals or organizations. Education should be provided under the direct supervision of a teacher.

Physical Activity

PE General Guidelines

All students in grades K - 12, including those with disabilities, special health care needs and in alternative education settings, have the opportunity to participate in moderate to vigorous physical activity at least 2 times per week during the entire school year.

All students in grades K - 12, including those with disabilities, special health care needs and in alternative education settings, have the opportunity to participate in moderate to vigorous physical activity 3 or more times per week during the entire school year.

All students in grades K - 12, including those with disabilities, special health care needs and in alternative education settings, have the opportunity to participate in moderate to vigorous physical activity every day during the entire school year.

School prohibits the use of physical activity as a punishment. Schools prohibit withholding physical activity, including recess and physical education, as punishment.

Throughout the Day

Elementary school students have at least 15 minutes a day of supervised recess (not including time spent getting to and from the playground), preferably outdoors. Supervisory staff encourage moderate to vigorous physical activity.

Elementary school students have two supervised recess periods per day (not including time spent getting to and from the playground), totaling at least 20 minutes. Supervisory staff encourage moderate to vigorous physical activity.

Elementary school students have two supervised recess periods per day, totaling at least 20 minutes (not including time spent getting to and from the playground), with one being offered in the morning. Supervisory staff encourage moderate to vigorous physical activity.

School policy outlines guidance on conditions regulating indoor and outdoor recess during extreme weather conditions.

Structured physical activities are planned by a licensed physical education teacher and integrated into health education and one or more core subjects, such as math, science, language arts, and social sciences, as well as in non-core and elective subjects.

Physical Education

Physical Activity

The physical education curriculum is sequential and consistent with Kansas State Board of Education approved physical education teaching standards for pre-kindergarten through grade 12.

Elementary students receive 60-99 minutes of physical education per week, which includes at least 40 minutes of moderate to vigorous physical activity.

Elementary students receive 100-149 minutes of physical education per week, which includes at least 70 minutes of moderate to vigorous physical activity.

Physical education is taught by teachers licensed by the Kansas State Department of Education.

Family & Community - PE

Community members are provided access to the school's outdoor physical activity facilities.

Community members are provided access to the school's indoor and outdoor physical activity facilities at specified hours.

Community members are made aware of opportunities to access the school's indoor and outdoor physical activity facilities at specified hours.

Integrated School Based Wellness

Integrated School Based Wellness

School staff are aware of Team Nutrition and the HealthierUS School Challenge Award opportunity.

Support the development of a farm to school program.

Facilitate the integration of a farm to school program and curricular activities including hands-on activities as appropriate to facilitate the nutritional and educational goals of the school.

Farm to school activities conducted each semester.

District or individual schools apply for one or more farm to school grant opportunities to support farm to school activities. Farm to school activities are integrated into core subjects.

Farm to school activities conducted quarterly.

The local school wellness policy team meets at least twice per year.

The local school wellness policy team meets at least once per quarter.

The school wellness policy and progress toward meeting the State Model Wellness Policy are made available to the public, including parents, students and the community.

The wellness policy and progress toward meeting the State Model Wellness Policy are presented to the local school board and school staff.

D0426 - Pike Valley Elementary Wellness Policies

The following Wellness Policies are in the process of being developed:

Developing Polices

Nutrition

General Atmosphere

The dining area has food service personnel and supervisory staff use positive communication cues with students to promote consumption of foods served as part of Child Nutrition Programs.

The dining area had adults model healthy eating in the dining areas and encourage students to taste new and/or unfamiliar foods.

Identify content of reimbursable lunch and breakfast near or at the beginning of the serving line(s).

Other Child Nutrition Programs

Meals and snacks served under the USDA At-Risk Afterschool Meals, Afterschool Care Snack Program, Fresh Fruit & Vegetable Program and/or Summer Food Service Program comply with all federal regulations and state policies.

Meals and snacks served under the USDA At-Risk Afterschool Meals, Afterschool Care Snack Program, Fresh Fruit & Vegetable Program and/or Summer Food Service Program comply with all federal regulations and state policies.

During the School Day

Fundraising within the school day and until 5 pm meets "All Foods Sold in Schools" Standards (sans the exempted fundraisers).

Fundraising activities involving the sale of food or beverages that meet "All Foods Sold in Schools" Standards and/or exempted fundraisers will not take place until after the end of last lunch period.

Nutrition Education

Nutrition Education

Integrate nutrition education into other core subjects such as math, science, language arts, and social sciences, as well as in non-core and elective subjects.

Integrate nutrition education into two or more core subjects such as math, science, language arts, and social sciences as well as in two or more non-core and elective subjects.

Integrate nutrition education into all core subjects such as math, science, language arts, and social sciences as well as in three or more non-core and elective subjects.

Nutrition Education

Include nutrition and health posters, signage, or displays in the cafeteria food service and dining areas, classrooms, hallways, gymnasium, and/or bulletin boards that are rotated, updated or changed quarterly.

Offer information to families at least once per semester that encourages them to teach their children about health and nutrition, and assists them in planning nutritious meals for their families.

Physical Activity

PE General Guidelines

Physical activity facilities in and on school property are safe with sufficient age-appropriate equipment for all students, including those with disabilities. Adequate adult supervision is provided.

School encourages extra physical activity time is an option for classroom rewards.

School offers lifetime physical activity that teaches basic motor skills, enhances knowledge of concepts related to movement needed to achieve and maintain health. Students learn the benefits of and an appreciation for regular physical activity.

Throughout the Day

Students that participate in indoor recess are provided moderate to vigorous physical activity opportunities.

Structured physical activity opportunities, in addition to physical education and recess (where applicable), are encouraged for all students.

Physical Education

Physical education curriculum encourages a multi-dimensional fitness assessment.

Integrated School Based Wellness

Integrated School Based Wellness

Annual staff wellness activities and/or professional development opportunities related to nutrition, physical activity and abstaining from tobacco are provided to encourage school staff to serve as healthy role models. Staff wellness activities and training may also include additional components of the Whole School, Whole Community, Whole Child Model.

Annually, offer school-sponsored wellness family activities that address one or more components of the Whole School, Whole Community, Whole Child Model.

Each semester, offer school-sponsored wellness family activities that address one or more components of the Whole School, Whole Community, Whole Child Model.

Annually partner with community health agencies/organizations and/or allow community use of school facilities for wellness activities.

The following students, parents, classroom teachers, food service professionals, physical education teachers, health professionals, administrators, school board members and other interested community members are engaged in developing, implementing, monitoring, reviewing and making the district wide wellness policies available to the public:
